

HS Series Pure Aluminum Heat Sinks

Overview

Utec's HS series heat sinks are made of 97% pure aluminum for high performance. The new design and stamped manufacturing process allows reduced heat sink volume (as much as 30%) for miniature equipment. The standard HS series heat sinks feature various size square bases and cylinder shaped pins arranged in a grid for better thermal transfer.

Available in base sizes of 10x10mm to 50x50mm

Models Available

10x10(mm)

12x12(mm)

14x14(mm)

16x16(mm)

18x18(mm)

21x21(mm)

24x24(mm)

25x25(mm)

30x30(mm)

36x36(mm)

42x42(mm)

45x45(mm)

50x50(mm)
